**Striebig CONTROL from Colonial Saw**

The Striebig CONTROL saw sets up quickly and easily and features automatic travel through the cutting cycle. It has powerful 7.5-hp motors and super stable frames, plus many added features. Many procedures can be done with just the push of a button, including: locking and releasing the saw beam, setting the horizontal cutting height, plunging and swiveling the motor, and locking the support rollers during sawing. Standard digital measuring provides improved repeatability and accuracy. The TRK dust collection system with full support backing grid keeps dust to an absolute minimum.

Manufacturer/BrandName	Model	Max. Size of Workpiece	Max.ThicknessofWorkpeice	MainSawHP	Scoring Saw HP
Striebig	Control	Up to 7'1" x 17'4"	3 1/8"	7.5 hp	Belt driven

**Laguna Tools 2700-Pro Panel Saw**

The Laguna 2700-Pro Panel Saw provides power and performance at an affordable price. The 9-ft. sliding table with swing-arm support provides plenty of travel to rip and crosscut full sheets. This European-made saw features American-made Baldor motors. The massive cast-iron trunions and saw-group provide vibration-free cutting. The standard micro adjustable rip fence and optional digital readout provide repeatable accuracy.

Manufacturer/BrandName	Model	Max. Size of Workpiece	Max.ThicknessofWorkpeice	MainSawHP	Scoring Saw HP
Laguna	2700 Pro	4' x 9' stroke	N/A	4.5 hp	1 hp

**SawTrax 3000 Series**

SawTrax announces its new 3000 Series of panel saws. It uses 10-in. saw blades and boasts a 2 7/8-in. depth of cut. They use a Milwaukee 6460 circular saw mounted to a customized saw bracket. The bracket has dust collection built into its housing. The 3000 Series comes in three different crosscut versions: 50, 62 and 74 in. All machines are 10 ft. wide and have an unlimited ripcut capability. Standard features are the patented Accu-Square alignment system; dust hookup and hose; folding stand; wheels to move the frame, vertical/horizontal tapes, a stop, steel-sleeved material rollers and a spinning saw insert plate.

Manufacturer/BrandName	Model	Max.SizeofWorkpiece	Max.ThicknessofWorkpeice	MainSawHP	Scoring Saw HP
Saw Trax	3062	Unlimited width x 2.75" depth x 62" height	2.75" depth	3 hp	N/A

**Safety Speed Cut ES52**

The ES52 panel saw is designed for high production and tight tolerance cutting. It features 2-axis sawing head movement for minimal material handling, rotary blade prescoring for chip-free cutting, and a shifting grid material support system that automatically adjusts to accommodate saw blade positioning. The ES52 also has multiple horizontal positioning stops for presetting repeatable ripcut dimensions.

Manufacturer/BrandName	Model	Max.SizeofWorkpiece	Max.ThicknessofWorkpeice	MainSawHP	Scoring Saw HP
Safety Speed Cut	ES52	61" crosscut 130" ripcut	2 1/4"	3 hp	N/A

**Adwood/Elcon DSX 1CNC vertical panel saw**

The DSX 1CNC vertical panel saws from Adwood Corp. are the latest development in a wide range of saws from Elcon. The newly developed CNC controlled stop system increases the work efficiency, minimizes the operator errors and labor costs. The DSX 1CNC saws are available in three sizes and come with such improvements as pneumatically controlled scoring, transport rollers, LED control panel, roller bearing guides and welded box frame.

Manufacturer/BrandName	Model	Max.SizeofWorkpiece	Max.ThicknessofWorkpeice	MainSawHP	Scoring Saw HP
ELCON	DSX	85" x 130"	3 1/8"	7.5 hp	Single blade scoring
ELCON	DSX E	85" x 130"	3 1/8"	7.5 hp	Single blade scoring
ELCON	DS	73" x 170"	2 1/4"	4 hp	Single blade scoring

VerticalPanelSaws

**HOLZ-HER 1255 vertical panel saw**

HOLZ-HER offers the 1255 vertical panel saw. The 1255 is loaded with the best-in-class frame, precision, scoring and ease of use, the company says. The entry-level model can be used to cut a variety of panel materials easily and precisely. It features solid all-welded box frame with a 169" x 75" (length/height) cutting capacity. The new 5.5-hp motor cuts panels up to 2 1/2 in. thick with scoring. The patented "Supercut" scoring innovation uses four-way reversible carbide-tipped knives to score all panel materials chip-free edges ready for edgebanding, with no visible glue line. It is also loaded with easy-to-use features such as an automatic withdrawing support grid, automatic locking beam and automatic locking tilt for easy changeovers between horizontal and vertical locking positions. The saw locks automatically at plunge in.
